11:00 am and 2:00 pm

Free with museum admission

A LIMITED  
ENGAGEMENT  
PRODUCTION

Join us for a tour of Carbon City to discover the wonders of fire, wind, water and the sun.

*Global Energy – The Musical* addresses complex scientific issues on energy and conservation, presenting them in a whimsical way to our future leaders: the ten and under set. Based on stories, poems and songs by children from the United States, the Kingdom of Jordan and Rwanda; put to music by acclaimed singer songwriter Tina deVaron; and performed by Child's Play Touring Theatre.
